<u>Bermuda:</u>				

Bermuda

* A zero ("0") indicates presence of cormorants in preceding decade and absence in present decade. A "999" indicates absence of cormorants in preceding decade and presence in present decade. Numbers less than 1 indicate a decline from the previous decade, while numbers greater than 1 indicate an increase. A blank cell indicates absence of cormorants in preceding and present decades.

Absolute Abundance of Double-crested Cormorants on Christmas Bird Counts

Indices of Abundance (birds/count) by Time Period

Note: This is based on the BirdSource CBC database.

In each case, comparisons within time periods are acceptable, while comparisons across time periods are not (because of differences in effort and CBC sites included).
